WOULD SERVE OREGON AS U. S. SENATOR

Well Known Legislator Seeks Nomination on Construc- tive Platform.

Based on his appeal to the voters of Oregon on a comprehensive and constructive platform, S. B. Huston, of Portland, has announced his candidacy for the United States Senate, subject to the result of the Republican primaries, May 18. Mr. Huston began the practice of law at Hillsboro, Wash- ington County, where he labored suc- cessfully, and 11 years ago removed to Portland to occupy a wider field. Since taking up his residence in Portland Mr. Huston has been active in civic affairs, and has been honored by his fellow citizens in his political lead- ership. His record in the Oregon State Legislature shows Mr. Huston to be a man of the people, and his vote on all measures affecting the development of the state and the welfare of the work- ers has been recorded as favoring leg- islation expressing the best social con- science and broad vision of the future. In his platform Mr. Huston stands for: Vigorous prosecution of the war un- til peace shall come with honor to the nation and an open way for democracy. Laying the cost of the war upon the interests best able to pay. When men give their lives, wealth should be re- quired to give the one thing it can give, dollars.

S. B. HUSTON
Making ample provision for the re- construction period which must follow the close of the war.
For tariff schedules based on the difference in cost of labor at home and abroad.
Making provision for free ports on the Panama Canal and at Honolulu and Manila.
Development of Alaska, both agricul- turally and industrially. Congress should safeguard the mineral wealth of the Territory, but the country should be opened to early development.
Development of latent water power in Oregon. The needs of the times call for constructive work along this line, under the leadership of Congress.
Making the basic eight-hour work day in mills, factories and mines com- pulsory by national legislation. This would give western lumber mills a fair chance to compete with the system of long hours and low wages in the South.
Development of waterways to sup- plement the reorganized railway sys- tem of the country.
Broadening the federal rural credits law sufficiently to make its benefits applicable to conditions in Oregon, in an effort to aid in land development.
Federal aid for the construction of good roads, particularly as a measure of relief for labor conditions following the war.
Support for the shipbuilding indus- try of the Columbia river district. The industry must be made permanent.
Stop Federal discrimination against Oregon.
Support of work along the Columbia river to maintain a 40-foot channel to the sea and improvement of harbors and rivers.
Amendment of the federal constitu- tion to provide for universal suffrage.
Support of national prohibition.

EUROPE NEEDS FOOD

Food Administration Declares It is an Absolute Sin to Waste Food—Food Has Become Sacred.

Europe is still sending an insistent call for more food. We must send it if the war is to go on efficiently. If we eat it all we cannot ship it, and the food administration has already tried to picture how much that wheat is needed by people who will starve if they do not get it, the food administra- tion states.
"For the least bit of heedlessness on your part in food conservation some one somewhere in the world must suf- fer privation," an official statement declares. "The food administration has mastered the problem of Ameri- ca's food in such a way that every ounce of food conserved and kept in the currents of trade goes to an empty stomach in Europe.
"It is an absolute sin to waste food. Food has become sacred.
"Food means life; it means some- body's life, and you cannot escape re- sponsibility.
"There is no waste of food among the allied nations."

SOME POULTRY DISEASES

When the crop is hard and un- yielding there is danger of the bird becoming crop bound.
When the joints are hot and swollen and the fowl is disin- clined to stand, rheumatism has taken hold.
When the nostrils are clogged with dirt and the eyes water, ward off a possible case of crop by timely treatment. If the case is bad apply the hatchet and bury the carcass.
When the bird seems lame and has a small swelling in its foot, remove to a house with no perches and oblige it to roost on a bed of straw. Bumble-foot is easily cured in the early stages if the cause is at once removed.
When a hen seems to drown down behind and goes repeatedly to the nest without laying, she is usually suffering from a disorder of the oviduct, and might as well be killed and eaten.
When the hen seems giddy and turns round and round, she is probably suffering from apop- lexy.
When the bird has leg weak- ness, with no disorder of the liv- er, feed lighter and give plenty of bone-forming material.

IMPORTANT TO GIVE VARIETY

Duplicate Spring Conditions as Near as Possible to Obtain Eggs in Winter Season.
Everybody gets eggs in the spring. Why? Because spring is the natural laying season. If we want eggs at other times of the year we must "fool" the hen by duplicating spring condi- tions as nearly as possible.
Variety is important in the winter ration. A hen craves and seeks dif- ferent kinds of food. In the spring and summer when she ranges on the farm she gets a variety, but in the winter, when there is no grass of clo-

Good Farm Flock.
ver, no bugs or worms, when the wa- ter is frozen over, when the snow is on the ground so that she cannot pick up a bit of gravel and sand, these things must be furnished in her feed.
A hen is different from most ani- mals. She will balance her own ration if given an opportunity.

PROPER CARE OF MACHINERY

Farm Implements Depreciate More in Value From Neglect Than From Actual Use.
Farm machinery depreciates in value more rapidly from poor care than from actual use. That is, a larger part of the 10 per cent annual depreciation is caused by exposure than by use.
A 100-acre farm needs about \$1,000 worth of machinery. Ten per cent depreciation means \$100 every year and more than \$50 of this is lost through lack of care. Sheds for this machin- ery would cost about \$200, which at 6 per cent a year would mean \$12. The difference between \$50 and \$12 cannot all be credited to profit, for part of the care of machinery lies in labor and material. Still there would be a fair margin. Housing, repairing at the proper time, and painting the wooden parts are three essentials in the care of machinery.

GOOD RACKS FOR SEED CORN

Wooden Affairs in Which Ears Are Placed on Separate Shelves Are Convenient.
Wooden seed racks, in which the ears are stored in rows on separate shelves, are convenient dryers, and have no drawbacks in a dry, breezy place, although the air cannot circulate freely on all sides and dampness may be held where the row of kernels rests on the wood.

WRINKLE VARIETIES OF PEAS

Soon as Ground Becomes Dry Enough for Thorough Preparation Plant Them in Garden.
While the smooth varieties of garden peas are capable of standing more cold and wet than the wrinkled sorts, they are scarcely worth the planting. As soon as the ground becomes dry enough for thorough preparation sow the wrinkle variety of peas.
Starting Plants.
On a small scale, vegetable seeds may be started in small boxes or flats, placed under the kitchen stove.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR HAR- NEY COUNTY.

SUMMONS
Violet Josephine Pellar, Plaintiff, vs. Joseph Henry Pellar, Defendant.
To Joseph Henry Pellar, above named defendant:
IN THE NAME OF THE STATE OF OREGON you are hereby re- quired to appear and answer the complaint in the above entitled suit within six weeks from the date of the first publication of this summons, and if you fail to appear or answer, for want thereof, the Plaintiff will apply to the Court for the relief prayed for in her complaint, to-wit: First, That the bonds of matri- mony now existing between Plaintiff and Defendant be dissolved and that Plaintiff have a decree of divorce absolute; Second, That the Plaintiff have the care, custody and control, of Joseph Donald Pellar, minor child of the Plaintiff and Defendant; Third, That Plaintiff have judg- ment for her costs and disbursements herein and for such other and fur- ther relief as to equity may pertain.
This summons is published in The Times-Herald, a weekly newspaper published and of general circulation in Harney County, Oregon, by order of Hon. H. C. Levens, Judge of the County Court for Harney County, Oregon, which said order was duly made and entered on the 18th day of December, 1917, and directed that this summons be published as above stated for a period of six weeks.
The first publication of this sum- mons is made on December 22, 1917.
(Signed) J. W. BIGGS,
Attorney for Plaintiff.
Whose residence and post office address is Burns, Har- ney County, Oregon.
